

**India**  
**Peripheral Arterial, Disease, Thromboangiitis Obliterans & Critical Limb Ischemia**  
**Epidemiology and Markets**

Table of Contents

DEMOGRAPHICS .....	7
Rural Population Predominates.....	7
Age Structure .....	7
ECONOMY .....	8
HOUSEHOLD INCOME .....	8
Middle Class Projected to Expand Significantly .....	9
Consumer Market Forecast to Become the Fifth Largest in the World.....	10
Household Healthcare Spending Forecast to Grow Rapidly .....	10
GOVERNMENT HEALTHCARE EXPENDITURES .....	11
PUBLIC HEALTHCARE SYSTEM.....	11
Limited Role of Central Government .....	11
Public Care—A State Responsibility.....	12
Three Tier System.....	12
Rural Care System .....	12
Urban System.....	12
Problems with the Public Health System.....	13
PRIVATE SECTOR .....	13
Dominant Service Provider.....	13
Sole Practitioners, Small Nursing Homes and Small Clinics Predominate .....	14
Inequitable Distribution of Medical Personnel, Resources and Technology.....	15
CORPORATE FOR-PROFIT HOSPITALS .....	15
Pioneered by Apollo Hospital Group.....	15
Types of Hospitals and Services Provided.....	15
International Accreditations.....	16
Broadening Customer Base.....	16
Health Cities.....	16
Public Private Partnerships .....	17
HEALTHCARE INFRASTRUCTURE.....	17
Medical Personnel.....	17
Hospitals .....	17
Infrastructure and Personnel Density .....	18
Healthcare Demand Exceeds Supply .....	18
Past Underinvestment Resulted in Infrastructure Inadequate for Current Demand .....	19
Magnitude of Projected Infrastructure Investment Creates Opportunities for Private Sector .....	19
INSURANCE.....	19
Majority of Patients Have No Insurance.....	19
Private Health Insurance .....	20
Cost of Care is Expensive Relative to Personal Income.....	20
Determines Patient Treatment Decisions.....	20

New National Health Insurance Program .....	20
Medical Tourism .....	21
VASCULAR SURGERY IN INDIA .....	21
Limited Number of Vascular Specialists and Facilities.....	21
A Relatively New Specialty.....	21
Low Physician Awareness of Atherosclerotic Vascular Disease .....	22
Even Less Consumer Awareness .....	22
Treatment Patterns .....	22
DISEASE AND PROCEDURE STATISTICS .....	22
TOBACCO USE.....	23
A Significant Risk Factor for Thromboangiitis Obliterans and Peripheral Arterial Disease .....	23
Bidis .....	23
Tobacco Use Highly Prevalent .....	23
Tobacco Consumption Increasing.....	24
Health Consequences .....	24
THROMBOANGIITIS OBLITERANS (TAO) .....	24
Related to Smoking.....	24
Symptoms .....	25
Multi-Limb Involvement .....	25
Treatment .....	25
Amputation .....	26
Prevalence .....	26
Hospitalized Patients.....	26
Population-Based Research .....	26
World Health Organization Study—Consequences of Tobacco Use in Bangladesh ...	27
The Number of Indians with TAO.....	28
TAO MARKET .....	28
CRITICAL LIMB ISCHEMIA CAUSED BY THROMBOANGIITIS.....	29
Prevalence .....	29
Critical Limb Ischemia/Thromboangiitis Patient Market.....	30
Critical Limb Ischemia/Thromboangiitis Limb Market .....	31
PERIPHERAL ARTERIAL DISEASE (PAD) .....	31
ATHEROSCLEROTIC CRITICAL LIMB ISCHEMIA (CLI).....	31
A Bilateral Disease .....	32
Multilevel Disease .....	32
RISK FACTORS .....	32
HYPERTENSION .....	33
Increases Risk of PAD .....	33
A Growing Problem.....	33
Urban Prevalence .....	33
Rural Prevalence .....	33
Over 100 Million Indian Hypertensives .....	33
DYSLIPIDEMIA .....	34
Low Density Lipoprotein (LDL) Increases Risk of Vascular Disease .....	34
Atherogenic Dyslipidemia .....	34

Indian Lipid Profile Similar to Atherogenic Dyslipidemia.....	34
Urban Prevalence .....	35
Rural Prevalence .....	35
Almost 190 million Indians Have Dyslipidemia .....	35
<b>DIABETES</b> .....	35
Diabetes Defined.....	35
A Note on Diabetes Terminology .....	36
Prediabetes Defined .....	36
Risk Factors .....	36
Mortality .....	36
Diabetes Prevalence Increases with Age .....	36
<b>DIABETES AND PERIPHERAL ARTERIAL DISEASE</b> .....	37
PAD Highly Prevalent in Diabetics .....	37
Diabetics Have Increased Risk for Developing PAD .....	37
Other Factors That Increase Risk of PAD in Diabetics .....	37
<b>DIABETES AND CRITICAL LIMB ISCHEMIA</b> .....	37
Higher Risk of CLI and More Severe Disease.....	38
CLI Develops Suddenly .....	38
Diabetes Increases the Risk of Amputation .....	38
Risk of Amputation Related to Severity of Diabetes.....	38
Higher Mortality .....	38
Additional Risk Factors Increase Severity.....	38
Diabetes and Smoking—A Deadly Combination .....	39
<b>INDIA—THE DIABETIC CAPITAL OF THE WORLD</b> .....	39
41 Million Diabetics and 36 Million with Prediabetes .....	39
Genetic Predisposition and Lifestyle Factors .....	40
Asian Indian Phenotype .....	40
Indians More Susceptible to Adverse Effects of Insulin Resistance .....	40
Younger Age of Type 2 Diabetes Onset .....	40
Increasing Diabetes Prevalence .....	40
<b>SUMMARY COMPARISON OF PERIPHERAL ARTERIAL DISEASE RISK</b>	
<b>FACTORS IN INDIA AND UNITED STATES</b> .....	41
<b>PERIPHERAL ARTERIAL DISEASE IN INDIAN DIABETICS</b> .....	42
Chennai Urban Population Study (CUPS).....	42
CUPS Peripheral Arterial Disease Prevalence Compared with U.S. and European	
Populations.....	43
Prevalence of PAD Likely Understated.....	43
Research May be Limited Because of Subjects Young Age .....	44
Duration of Diabetes .....	44
Bikaner Diabetic Clinic Study .....	45
<b>THE DIABETES METHOD</b> .....	46
<b>NUMBER OF INDIANS WITH PERIPHERAL ARTERIAL DISEASE</b> .....	46
PAD Estimates Based on CUPS Prevalence.....	47
PAD Estimates Based on Bikaner Prevalence in Diabetics.....	47
Diabetes Prevalence Held Constant .....	47

NUMBER OF INDIANS WITH CRITICAL LIMB ISCHEMIA CAUSED BY PERIPHERAL ARTERIAL DISEASE .....	47
CRITICAL LIMB ISCHEMIA/PERIPHERAL ARTERIAL DISEASE MARKET .....	48
Patients .....	48
Limbs .....	49
PERIPHERAL ARTERIAL DISEASE MARKET .....	50
Patients .....	50
Limbs .....	51
CRITICAL LIMB ISCHEMIA—COMPARISON OF MARKETS BY CAUSE.....	51
Patient Market Overview .....	51
Limb Market Overview.....	52
IN-HOSPITAL CRITICAL LIMB ISCHEMIA DISEASE PATTERNS .....	53
AMPUTATION .....	53
Incidence .....	53
Number of Amputations Under Estimated .....	53
Nontraumatic Amputations by Cause .....	54
Diabetic Foot Amputations .....	54
Critical Limb Ischemia Amputations.....	55
Atherosclerotic CLI Amputations.....	55
Thromboangiitis CLI Amputations.....	55
Amputation by Location .....	55
Indian TAO Patients Might Undergo Higher Rates of Amputation .....	55
APPENDIX: DEDICATED VASCULAR SURGERY CENTERS .....	56
Listed by Geographic Zone.....	56
North Zone .....	56
West Zone .....	56
South Zone .....	57
