

INDEX OF TABLES

Table 1: 2008 Inpatient Lower Limb Procedures Estimated by Type of Procedure and Vascular Territory.	11.
Table 2: 2008 Aortoiliac (Pelvic)* Revascularization Procedures Suitable for Treatment with Angioplasty or Atherectomy Categorized by Procedure Type.	13.
Table 3: 2008 Above Knee (Femoral Popliteal) Revascularization Procedures Suitable for Treatment with Angioplasty or Atherectomy Categorized by Procedure Type.	15.
Table 4: 2008 Below Knee (Tibial Peroneal) Revascularization Procedures Suitable for Treatment with Angioplasty or Atherectomy Categorized by Procedure Type.	17.
Table 5: 2008 Inpatient Amputation Categorized by Procedure Type.	19.
Table 6: 2008 Bare Metal Stent (BMS) & Drug-Eluting Stents (DES) in the Lower Limbs. Detailed Analysis by Vascular Territory.	20.
Table 7: 2008 Inpatient and Outpatient Endovascular Procedures By Vascular Territory (Primary Stents Only).	22.
Table 8: 2008 Summary of Endovascular Procedures Representing the Market for Treatment with Angioplasty or Atherectomy.	24.
Table 9: 2003-2008 Analysis of Angioplasty & Atherectomy Procedures in ICD-9 Procedure Code 39.50.	25.
Table 10: 2005-2020 Estimated Number of U.S. Citizens with PAD.	26.
Table 11: Assumptions Employed to Estimate U.S. PAD Market Potential for Revascularization Procedures By Disease Severity.	27.
Table 12: 2005-2020 U.S. PAD Revascularization Market Potential by Type of Procedure (Patients and Limbs).	30.
Table 13: Summary of Universal Assumptions Employed to Forecast Endovascular Market by Vascular Territory (Primary Stents).	31.
Table 14: Primary Stenting Assumptions Employed to Forecast Endovascular Market by Vascular Territory.	34.
Table 15: 2003-2020 Aortoiliac PTA and Stent Procedures. Primary Stenting Gains Share Rapidly.	36.
Table 16: 2003-2020 Aortoiliac PTA and Stent Procedures* Primary Stenting Gains Share Moderately	37.

Table 17: 2003-2020 Above Knee PTA and Stent Procedures. Primary Stenting Gains Share.	39.
Table 18: 2003-2020 Above Knee PTA and Stent Procedures. Primary Stenting Loses Share.	40.
Table 19: 2003-2020 Below Knee PTA and Stent Procedures. Primary Stenting Gains Share.	42.
Table 20: 2003-2020 Below Knee PTA and Stent Procedures. Primary Stenting Loses Share.	43.
Table 21: 2008 Inpatient Endovascular Procedures Including Provisional Stents.	48.
Table 22: Percentage of Endovascular Procedures Performed on an Outpatient Basis	51.

INDEX OF FIGURES

Figure 1: Inpatient PAD Procedures 2008 and 2007. Comparison of Endovascular, Surgery and Amputation. (Primary Stents).	8.
Figure 2: Inpatient PAD Procedures 2008 and 1997. Comparison of Endovascular, Surgery and Amputation. (Primary Stents).	9.
Figure 3: 2008 Endovascular Market by Vascular Territory. (Primary Stents Only).	21.
Figure 4: 2008 Endovascular Procedures by Device Type and Territory. (Primary Stents Only).	23.
Figure 5: 2008 Inpatient and Outpatient Endovascular Market. (Primary Stents Only).	24.
Figure 6: 2008 Inpatient and Outpatient Revascularization Procedures by Type.	25.
Figure 7: 2005-2020 Projected Number of Endovascular and Surgical Procedures. Endovascular and Surgical Market Shares Remain Constant or Endovascular Gains Share from Surgical.	29.
Figure 8: Contribution of Primary Stenting in 2008 and 2020. Infrainguinal Stenting Increases versus Infrainguinal Stenting Declines.	35.
Figure 9: 2003-2020 Aortoiliac Angioplasty/Atherectomy and Primary Stent Procedures. Primary Stenting Gains Share Rapidly or Primary Stenting Gains Share Moderately.	38.
Figure 10: 2003-2020 Above Knee Angioplasty/Atherectomy and Primary Stent Procedures. Optimistic and Pessimistic Cases. Primary Stenting Gains Share or Primary Stenting Loses Share.	41.
Figure 11: 2003-2020 Below Knee Angioplasty/Atherectomy and Primary Stent Procedures. Optimistic and Pessimistic Cases. Primary Stenting Gains Share or Primary Stenting Loses Share.	44.
Figure 12: U.S. PAD Endovascular Market Comparison of Total Dollar Volume and Share by Device Type in 1997 and 2008.	45.
Figure 13: U.S. Angioplasty/Atherectomy Market. Contribution of New Atherectomy Devices 2003 and 2008.	46.
Figure 14: 2008 PAD Inpatient Endovascular Procedures by Type. Comparison of Market with Primary Stents and Market with Primary and Provisional Stents.	49.
Figure 15: 2008 PAD Revascularization Procedures by Type. Comparison of Market with Primary Stents and Market with Primary and Provisional Stents.	50.
