

**PERIPHERAL ARTERY DISEASE IN AFRICAN AMERICANS:
PREVALENCE, REVIEW OF DISEASE DISPARITIES AND
CAUSES OF THESE DISPARITIES**

**Why Do African Americans Have a Higher Prevalence of PAD and Why is the Disease
More Severe?**

INDEX OF TABLES

Table 1 2020-2040 Prevalence of Peripheral Artery Disease and Prevalence by Disease Severity In the African American Population Ages 45 and Older	8.
Table 2 Prevalence of Peripheral Artery Disease in African Americans Studies Reviewed and 2019 U.S. Estimates	13.
Table 3 2019 Adjusted Prevalence of Peripheral Artery Disease in African Americans Recalculated to Include Symptomatic Disease	15.
Table 4 2019 Prevalence of Peripheral Artery Disease in African Americans Most Reasonable Diabetes Method Estimates	15.
Table 5 Diabetes Method 2019 Prevalence of Peripheral Artery Disease in African Americans Ages 45 and Older Comparison of Methods 1-4	17.
Table 6 Diabetes Method Assumptions Employed in Estimation Methods 1-4 Percent Prevalence of Diabetes by Age Group and Percent Prevalence of Peripheral Artery Disease by Age and Glucose Status	18.
Table 7 2020-2040 Prevalence of Peripheral Artery Disease in African Americans Ages 45 and Older	20.
Table 8 2020-2040 Prevalence of Critical Limb Ischemia in African Americans Ages 45 and Older	21.
Table 9 African Americans Age ≥ 65 CLI Prevalence in PAD by Glucose Status	21.
Table 10 African Americans Ages 45-64 CLI Prevalence in PAD by Glucose Status	22.
Table 11 2020-2040 Prevalence of Peripheral Artery Disease and Prevalence by Disease Severity In the African Americans Ages 45 and Older	24.
