**INDEX OF TABLES AND INDEX OF FIGURES**

## INDEX OF TABLES

Table 1 2015-2040 Peripheral Artery Disease Prevalence	8.
Table 2 2015-2040 Patient Prevalence of Critical Limb Ischemia and Intermittent Claudication	9.
Table 3 2015-2040 Limb Prevalence of Critical Limb Ischemia and Intermittent Claudication	9.
Table 4 2015-2040 Critical Limb Ischemia Number of Revascularized Patients and Limbs	11.
Table 5 2015-2040 Intermittent Claudication Number of Revascularized Patients and Limbs	12.
Table 6 2015-2040 Critical Limb Ischemia and Intermittent Claudication Total Number of Revascularized Patients and Limbs	13.
Table 7 Peripheral Artery Disease Percent of Revascularizations by Type: Surgery or Endovascular	14.
Table 8 Critical Limb Ischemia Patients Percent of Revascularizations by Type: Surgery or Endovascular	15.
Table 9 2015-2040 Critical Limb Ischemia Number of Patients and Limbs Undergoing Endovascular Revascularization	16.
Table 10 Intermittent Claudication Patients Percent of Revascularizations by Type: Surgery or Endovascular	16.
Table 11 2015-2040 Intermittent Claudication Number of Patients and Limbs Undergoing Endovascular Revascularization	17.

Table 12 2015-2040 Critical Limb Ischemia and Intermittent Claudication Number of Patients and Limbs Undergoing Endovascular Revascularization	18.
Table 13 Peripheral Artery Disease Percent of Endovascular Revascularizations Performed by Vascular Territory	18.
Table 14 Critical Limb Ischemia Percent of Endovascular Revascularizations Performed by Vascular Territory	20.
Table 15 2015-2040 Number of Critical Limb Ischemia Patients Undergoing Endovascular Revascularizations by Vascular Territory	20.
Table 16 2015-2040 Number of Critical Limb Ischemia Limbs Undergoing Endovascular Revascularizations by Vascular Territory	21.
Table 17 Intermittent Claudication Percent of Endovascular Revascularizations Performed by Vascular Territory	22.
Table 18 2015-2040 Number of Intermittent Claudication Patients Undergoing Endovascular Revascularization by Vascular Territory	23.
Table 19 2015-2040 Number of Intermittent Claudication Limbs Undergoing Endovascular Revascularization by Vascular Territory	24.
Table 20 2015-2040 Total Number of Critical Limb Ischemia and Intermittent Claudication Patients Undergoing Endovascular Revascularization by Vascular Territory	25.
Table 21 2015-2040 Total Number of Critical Limb Ischemia and Intermittent Claudication Limbs Undergoing Endovascular Revascularization by Vascular Territory	25.
Table 22 Popliteal Disease as a Percentage of Femoropopliteal Disease by Disease Severity	28.

Table 23 2015-2040 Critical Limb Ischemia Number of Patients and Limbs Undergoing Popliteal Revascularization	29.
Table 24 2015-2040 Intermittent Claudication Number of Patients and Limbs Undergoing Popliteal Revascularization	30.
Table 25 2015-2040 Total Number of Patients and Limbs Undergoing Popliteal Revascularization	30.
Table 26 Popliteal Disease Percent Prevalence by Segment	31.
Table 27 2015-2040 Critical Limb Ischemia Number of Patients Undergoing Popliteal Revascularization by Segment	33.
Table 28 2015-2040 Critical Limb Ischemia Number of Limbs Undergoing Popliteal Revascularization by Segment	33.
Table 29 2015-2040 Intermittent Claudication Number of Patients Undergoing Popliteal Revascularization by Segment	34.
Table 30 2015-2040 Intermittent Claudication Number of Limbs Undergoing Popliteal Revascularization by Segment	35.
Table 31 2015-2040 Total Number of Patients Undergoing Popliteal Revascularization by Segment	35.
Table 32 2015-2040 Total Number of Limbs Undergoing Popliteal Revascularization by Segment	36.
Table 33 Prevalence of Single Segment and Multisegment Popliteal Disease	37.

Table 34 2015-2040 Number of Peripheral Artery Disease Patients Undergoing Popliteal Revascularization for Single Segment and Multisegment Popliteal Disease	38.
Table 35 2015-2040 Number of Peripheral Artery Disease Limbs Undergoing Popliteal Revascularization for Single Segment and Multisegment Popliteal Disease	38.
Table 36 2015-2040 COVID Impact on Peripheral Artery Disease Revascularizations: Optimistic Case Number of Patients and Limbs Undergoing Endovascular Procedures	40.
Table 37 2015-2040 COVID Impact on Peripheral Artery Disease Revascularizations: Pessimistic Case Number of Patients and Limbs Undergoing Endovascular Procedures	41.

## INDEX OF FIGURES

Figure 1: Peripheral Artery Disease Endovascular Revascularizations by Disease Severity and Vascular Territory Estimate Outline and Assumptions Employing 2020 as an Example	7.
Figure 2 Popliteal Artery Disease Endovascular Revascularizations by Disease Severity and by Popliteal Segment Estimate Process and Assumptions Employing 2020 as an Example*	27.
